

ISO9001

OKOUMÉ VENEERED PLYWOOD

Composition

Okoumé plywood (marine plywood) is a panel made up of many sheets (layers) of okoumé veneer. After being sanded and calibrated, the panel is covered with veneer.

Applications and Use

Very resistant panel, ideal for outdoor use. It is used primarily for furniture and wall-coverings in shipbuilding.

Upon specific request, we can supply the panel with RINA approval.

Gluing

According to the UNI-EN 314-2 standards Class 3

Specific weight

about 540 kg/m³

Dimensions

2490x1210 mm

3090x1520 mm

Thicknesses

From 3 mm to 41 mm
