

ISO9001

POPLAR VENEERED PLYWOOD

Composition

Poplar plywood is a panel made up of many sheets (layers) of poplar veneer, perfect for covering with veneer. Upon specific request, an FSC-certified panel is available with class 2 (AW100) gluing, ideal for damp areas.

Applications and Use

A panel that is light, flexible and strong. It is used for fine furniture and furnishings. The version with special class 2 gluing is often used for ship furniture instead of the heavier okoumé plywood.

Gluing

According to the UNI-EN 314-2 standards Class E-1

Specific weight

about 410 kg/m³

Dimensions

2510x1860 mm

3110x1860 mm

Thicknesses

From 5 mm to 41 mm

Note: Other thicknesses and dimensions can be supplied.
