

ISO9001

SifarFLEX

DESCRIPTION: this flexible plywood is a panel with great flexibility, ideal for the production of curves and for use in construction as a non-structural element (Regulation 305/11/EU and Directive 89/106/EEC) .

Made primarily with urea glue, it is classified E-1 - low formaldehyde content.

It can be supplied in both raw and veneered versions.

Composition: made with exotic wood veneers (Fromager)

Productions:

Thicknesses mm. 5-8-16 mm

Sizes mm. 2500x1250 / 1250x2500 – 3120x1860 / 1860x3120

Technical data

- Average radius of curvature without surface cracking:**

nominal thickness (mm)	5	8	16
radius of curvature (mm)	80	110	220

- Physical and mechanical properties:**

Mass	UNI EN 323	kg/m³ 410 ±30
Gluing	UNI EN 314	class 1
